

Marvellous Infosystems: Angular Assignment No: 4

Name: Shrirang Jagdish Nikam

Enrollment No: 396AM_Shrirang

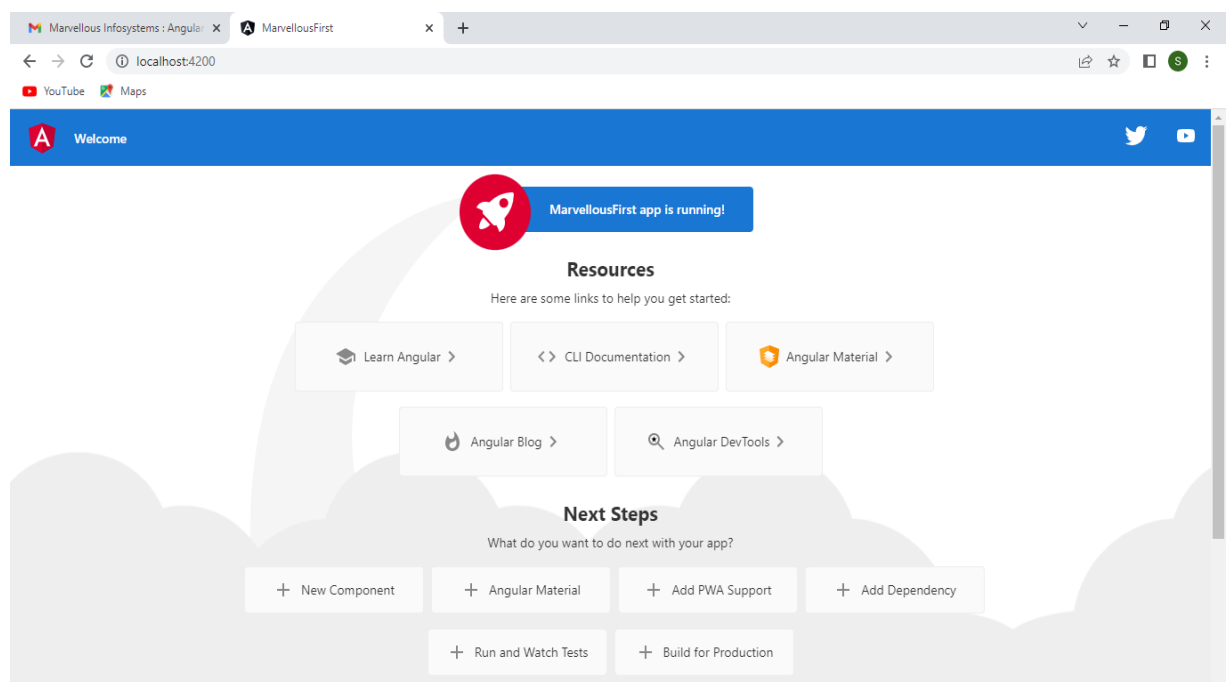

1. Create first basic Angular application.

As we want to create our first application use below commands

```
ng new MarvellousFirst  
cd MarvellousFirst  
ng serve
```

<http://localhost:4200>

Answer:

2. Create Angular application which will display “Welcome to Marvellous Infosystem’s First Application!” on page. [MarvellousFirstApp].

Answer:

"Welcome to Marvellous Infosystem's First Application!"

3. Create Angular application which will display one textfield and one static text “Marvellous Infosystems” on page. [MarvellousLabel].

To do this remove whole code from app.component.html and write statements to add label and text field.

Answer:

4. Create Angular application which creates one Custom component named as Demo. Render that Demo component from app component.
To do this use below command
ng generate component Demo
Add the selector of Demo component into app component.

Answer:
